The "ROFT 2" Break & Jump Tip

New Generation in quality of the Special Tips for Break & Jump shots.

The secret of the jumps and breaks with the least effort is in the tip.

What is the difference of ROFT 2 - Break Jump Tip?

* The ROFT 2 Tip is not a Phenolic Tip.
* The ROFT 2 tip reduces bad contact to a minimum, keeps the chalk outstanding and jumps + breaks come with a notable result!
* The ROFT 2 Tip offers the possibility to play Effet at the Whites. So you can run jumps even with Effet!
* The ROFT 2 Tips can be installed with most fast and composite adhesives.

* The ROFT 2 Tip can be easily installed with
However, if you have no experience with it, you should leave it to a specialist.
* The radius can be simply grinded with the tip shaper or grinding wheel.
* The ROFT 2 tip is absolutely harmless to the balls.

So if you have a jumpqueue or break queue at the moment, which does not have the performance as you would like, you do not need a new one! But the right tip - the ROFT 2
Available sizes (diameter): 16mm
