Adjust the hit ball distance (according to personal needs)

WEIGHT BOLT
Adjustable weight (according to personal needs)

WHY CHOOSE US?

VS

- Titanium Alloy 1 1/8" joint
High temperature and humidity stability
- Lizard-grain Cowhide Grip
Heat-resistant and coloration-resistant, maintaining long-lasting performance during grip-shifting, creating spin
- HYPER X7 Technology
A hybrid structure of carbon-core and maple | Shaping composite carbon layers with laser flexibility, offering superior stability, efficient energy transfer, and a smooth hit.
- Performance-Tuned Primary Butt Material
We carefully select and process materials to ensure balance, stability, and a consistent, high-quality striking experience.
- Quadruple steel 0.178" joint
The car hardware is not easy to penetrate
- Quadruple temper coating process
Prevents corrosion and color changes
- Weight/Oriental Wood
Keeps the ball alive, preventing any flex or vibration
- The butt has a single material
For the best vibration transfer and stable performance

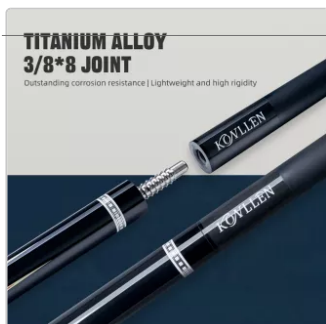

KONLLEN HYPER X7 4W+3C 2ND GEN
NEXT-GEN HYBRID TECHNOLOGY

- Performance-Tuned Primary Butt Material
- 4W+3C Composite
- High-Performance Composite Material
- Lightweight Titanium Alloy joint
