STAINLESS STEEL 3/8*8 JOINT
 Outstanding corrosion resistance | Lightweight and high rigidity

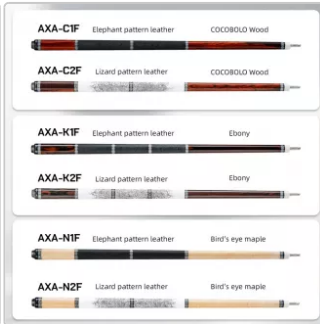

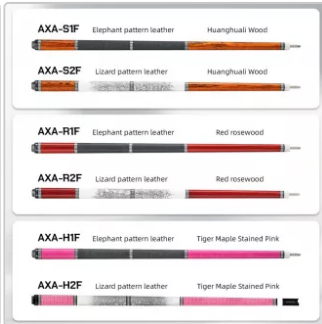

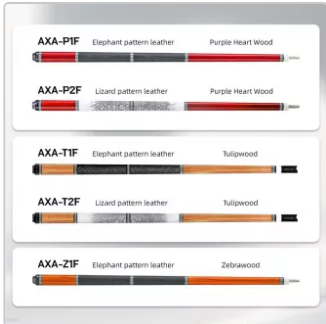

OTHER POOL CUES

- JUMA high hardness ferrule**
 - It features the advanced level of surface-protective ferrules, offering exceptional impact and abrasion resistance.
- Elephant ear pattern cowhide grip**
 - The grip is crafted from high-quality cowhide leather and is wrapped with a fine, smooth, fine pattern on the surface.
- JMC Selected Hard Maple**
 - Only the best JMC selected high-quality hard maple has extremely high density, excellent hardness and natural elasticity.
- Technological paint finish**
 - Resistant to rust and heat, but also a combination of automatic lubrication.
- Ordinary ferrule**
 - The grip is made of a hard-to-break, the ferrule when breaking the ball is prone to the ball ball is unstable.
- Poor quality grip**
 - The grip is not smooth and the grip is not comfortable.
- Domestic maple**
 - General purpose, neither moisture resistance and air deterioration performance.
- Cheap paint**
 - Does not have a rust-resistant paint, the paint is not durable and the paint is not easy to clean.

Brand: **KONLLEN** Type: **Pool Cue**
 Model: **AKA-3-M** Length: **149cm/58.3in**
 Specification: **1/2 Split** Weight: **538-567g/19-20oz**

Note: The cue method is JUMA, and a small size is better for the normal range.

12.5MM/0.49IN TIP+ JUMA FERRULE

4.5mm/0.18in JUMA Ferrule
 It maximizes the original feedback from the tip to the cue ball during impact, making calculations for the cue point more intuitive and precise.

12.5mm/0.49in Multi-layer Tip
 Multi-layer pressed tip, transparent power transmission, stable hitting feeling.

EMBEDDED CARBON TUBE STRUCTURE
 Not easy to deform, tough and stable

15cm/5.91in Carbon Tube

30cm/11.81in Carbon Tube

Natural abalone inlay
