Cueroc CR-Rengas

The Cueroc CR-B05 is a cue of understated elegance and professional-grade performance. Measuring 59 inches in length and weighing between 19 to 20 ounces, it features a deep, rich Rengas forearm and butt sleeve, each detailed with eight striking White Juma spliced points for a clean and classic visual contrast. The 12.80mm wood shaft offers consistent feel and accuracy, while the silver alloy diamond ringwork adds a refined, contemporary accent. A Cueroc black medium tip ensures controlled, responsive play, paired with a solid radial pin joint for stability and precision. The cue is finished with a luxurious black and white ring-tailed lizard wrap for a sophisticated grip, and includes custom Cueroc-logo joint protectors, completing its exceptionally elegant presentation. **Details:**
