Billiards table NEWLINE

Size 6ft, External dimensions: 215 x 122 x 82 cm Playing field: 186 x 93 cm Weight: approx. 190 kg
Room size should be at least 500x430 cm!

The billiard table model NEWLINE is a perfectly successful combination of modern billiard body, a distortion-free base and an extremely stable table leg construction made of metal. The authentic body design in a great old white oak look (brushed) consists of a durable and highly abrasion-resistant melamine resin surface.

The robust metal foot parts are provided with an unobtrusive foot to optimally compensate for small ground unevennesses. All base wood elements as well as the band frame consist of 25mm thick MDF, which is coated with an impact-resistant HPL laminate. The approx. 20mm thick special playing plate is coated with melamine on both sides to protect against moisture and warpage. The joy of playing is completed by the running, pre-tensioned, high-quality pool tablecloth (cloth colour: grey).

A special feature of this billiard table model NEWLINE is that the special construction of the substructure makes it easy to dismantle the playing plate. This means that it is possible to re-purchase the pool table and renew the tablecloth without much effort. The high-quality band rubbers as well as dimensions of the angles of incidence comply with the official billiard standards. The classic drop pockets are made of PVC material and therefore very quiet.

modern table look
authentic design
high-quality materials & workmanship
robust table leg construction
optional accessories

Note - The billiard body is already delivered completely pre-assembled. The billiard cloth is already stretched on the playing plate - this makes easy self-assembly possible.
