## Informazioni sul prodotto

**STAINLESS STEEL 3/8\*8 JOINT**  
Outstanding corrosion resistance | Lightweight and high rigidity

**BILLIARD SUPPLIER COACHING SERVICES**  
**CALL FOR ORDERS SERVICES 49 151 585 085 43**

**JUMA high hardness ferrule**  
It features the increased level of surface contact with ferrules, offering exceptional impact and absorption resistance.

**Elephant ear pattern cowhide grip**  
The grip is crafted from high quality cowhide and is extremely durable. It has a smooth, fine pattern and is available in black and brown.

**JMC Selected Hard Maple**  
Only the best JMC selected high quality hard maple has extremely high density, excellent hardness and natural elasticity.

**Technological paint finish**  
Resistant to not just a stain, but also a combination of chemicals and acids.

**OTHER POOL CUES**

**Ordinary ferrule**  
The grip surface is hard to break, the ferrule will break the ball to prevent the ball to penetrate.

**Poor quality grip**  
The grip is not smooth and the grip is not comfortable.

**Domestic maple**  
General purpose, average resistance and not satisfactory performance.

**Cheap paint**  
The paint is not resistant to chemicals, acids, and alkalis, and will be damaged and faded.

**Aluminum Inlay**

**13mm/0.51in JUMA Ferrule**

**JMC Hard Maple**

**Elephant Ear Pattern Cowhide Grip**

**Cross Carbon Sheet Structure**

**Holdre Bumper**

74cm/29.13in

12.5mm/0.49in

Brand: **KONLLEN** Type: **Pool Cue**  
Model: **AKA-3-M** Length: **149cm/58.3in**  
Specification: **1/2 Split** Weight: **538-567g/19-20oz**

Note: The cue method is JUMA, and a small size is better for the internal range.
