In modern pool, it represents the connecting stability.

While beginners often act in a shot-oriented manner, advanced and performance-oriented players develop an action-oriented structure.

The PreShotRoutine ensures that every shot is executed under comparable internal conditions – regardless of the game situation, opponent, or pressure.

Part 2: CueballSpeed

Optimal control over the cueball.

This module focuses exclusively on YOU and your cueball.

Controlling the speed of the cueball in pool is crucial for precision and accuracy on every shot.

Identify techniques and influencing factors that play a decisive role in the speed of the cueball and sustainably optimize your positioning through the exercises.

I also offer a workshop on this topic.

Registration can be done in person, by phone, or by email.

Appointments are available upon initial contact.

Training location: 6-Pocket Regensburg, Frankenstrasse 2c, 93059 Regensburg

Trainer:

Thomas Ott (active in pool billiards since 1987, pool billiards instructor since 1992, C-Trainer, BTC Instructor, developer and publisher of "Beginner Training in Pool Billiards," PSR System, CS 1-7, BTC Training, BTC-1 Program, BTC-2 Program, BTC Mental Training in Billiards)
