#### Predator-Z-3 shaft

is the all around athlete. Stiffer than a Z-3, but not as stiff as Vantage, the preferred taper and diameter of countless champions is even more accurate than before. With the addition of V-Tek construction, the 314-3 is 3% lighter than the 314-2 at the front-end and even stronger than before.

#### PREDATOR 314-3

Reloaded with new technology. The third generation of Predator's world renowned shafts has arrived, featuring a new front end construction, stronger high-tech materials, and even better game changing performance.

- V-Tek Construction
- V-Tek Fiber Tip Silencing
- iMatch 10-Piece splice construction
