WHY CHOOSE US?

VS

- Titanium Alloy 1 1/8" joint
High temperature and humidity stability
- Lizard-grain Cowhide Grip
Heat-resistant and coloration-resistant, maintaining long-lasting performance during grip-shifting, creating spin
- HYPER X7 Technology
A hybrid structure of carbon-core and maple | Shaping composite carbon layers with laser flexibility, offering superior stability, efficient energy transfer, and a smooth hit.
- Performance-Tuned Primary Butt Material
We carefully select and process materials to ensure balance, stability, and a consistent, high-quality striking experience.
- Quadrax steel 0.178" joint
The car hardware is not easy to penetrate
- Standard leather coating prevents scratches, increases air flow stability
- Weight/Oriental Wood
Keep the ball close to the center and flex the cue shaft
- The butt has a single material
The ball distance is adjustable and stable throughout
